

“Window - Fasting Tracker” Privacy Policy

Protecting your private information is a paramount priority for us. This Statement of Privacy applies to the *Window* app and governs data collection and usage. *Window* is a utility app design to track intermittent fasting windows. By using the *Window* app, you, “the user”, consent to the data practices described in this statement.

Collection of your Personal Information

We collect data and store data essential the the operation of the app, such eating window start times, end times, note text, and photographs. This data is not shared with any service and is only accessible through the *Window* app.

More sensitive data, such as the user’s weight, is stored using the Apple Health app and associated HealthKit framework where available. On devices where HealthKit is unavailable (on iPad, for example), the user may opt-in to storing their weight data using the *Window* app’s standard data storage methods, where it is not shared with any service and is only accessible through the *Window* app.

Security of your Personal Information

Window protects the user’s personal information from unauthorized access, use, or disclosure through systems provided by Apple. Data is not transmitted off of the device in which it was created or entered.

Opt-Out & Deletion of Data

Window does not retain user data after it has been deleted by the user. Deleting the *Window* app from the iOS device destroys all references to the user and the user’s information.

Changes to this Statement

This Statement of Privacy may be updated occasionally to reflect product evolution and feedback. We encourage you to periodically review this Statement of Privacy to be aware how your information is being used and protected.

Contact Information

We welcome your questions and comments regarding this Statement of Privacy. If you believe that *Window* has not adhered to this Statement, please contact the developer at calstephens.tech.

Effective as of November 26, 2018.
